FUTURE PERFECT

Hedgren 30 ANNIVERSARY 1993

It was 30 years ago that Xavier Kegels launched Hedgren Creations in his hometown of Antwerp, Belgium. He named it after his grandmother, whose down-to-earth nature and open-minded spirit would influence the collections that have stood the test of time.

Three decades later, Hedgren continues to design bags, backpacks and luggage that are as functional as they are beautiful. With our long-time promise to move people – both emotionally and physically – we have continued to put the values of our customers front and centre. Inclusivity, intuition and freedom of movement are at the heart of every bag we make.

OUR VALUES

Regardless of in-between distances, within our global network we will always be connected by the 6 values that lie embedded in our Hedgren DNA. And we will always be open to include everybody who shares our values in our family circle.

Therefore we look at people with an open mind. We respect their personality and personal style and we're always ready to fulfil their desire to belong.

WE VALUE

COCOON COLLECTION

COMFY, SPARKLING COCOON

We all love the safe and warm feeling of a cozy cocoon, and at the same time being able to burst out and become a dazzling butterfly!

Hedgren proudly presents a capsule collection that offers precisely that. Cocoon boasts a comfortable, cushiony outlook with a sparkling design, available in three colours, each with a subtle spark. Waistbag, tote, backpack, or crossover, they all go with your stylish or sporty look.

LINEO
COLLECTION

For the modern Hedgrenist

Recent history has shown that we should be ready to do our work from any location. And as technology more and more influences how and where we work, digital nomads are becoming the norm.

The new Lineo collection also includes smaller crossovers for jaunts around town. They all sport the same sleek design as the Lineo luggage, with straight lines and sophisticated details that perfectly define the working Hedgrenist – whether in a foreign country or a local café.
