Hedgren 30 ANNIVERSARY 1993

2023
30th anniversary celebrated with the launch of Hedgren EAU de PARFUM .

AW24 is a celebration of the amazing natural hues and materiality of our earth: Mud, stone, minerals, clays, and delicate vintage flowers.

Our colour palette emphasises on a truly complementing, refined gamut of Pinks and Greens. Spanning from luxurious darks to subtle softs, our Pinks are all wellbeing, pampering hues. They are inclusive and sensitive. Greens are different and particular, from underground shades to mineral impressions.

Finally, we end with a pop of electric or bioluminescent detailing in a lively evolution of new, tactile surfaces and poetic material textures.

STRING NEW

THIS PRODUCT IS MADE WITH RECYCLED MATERIALS

TO FOLD OR NOT TO FOLD, THAT'S THE QUESTION

The art of Origami inspires our newest collection String. Origami's magical craft of folding takes a simple piece of paper and creates something new, intricate and exciting. This ancient, elegant practice is just as much about expressing emotion, as it is about rational engineering.

String takes this ethos into a breathtaking collection of bags for everyday use. Praticing the same geometrical design philosophy, cleverly placed folds and compression strings create bags that can expand when needed, with unique, flexible styles that stand out in a crowd. The soft and textured fabric and touchable rubber details add a tactile dimension, and every bag includes that signature Hedgren functionality that keeps your essentials organised.

FIKA

THIS PRODUCT IS MADE WITH RECYCLED MATERIALS

SLOW DOWN AND APPRECIATE THE GOOD THINGS IN LIFE

The literal meaning of the Swedish word 'Fika' is coffee. In its broader context, Fika stands for a moment to slow down and appreciate the good things in life.

This sustainable collection of cross over models, handbags, a tote, backpacks, a briefcase and even a rolling tote aims to bring peace, quiet, and joy to your mind. Soft rounded edges, minimalistic design, and recycled materials pair beautifully with the witty design details of the Fika collection.

Fika offers all the smart functionality you expect from Hedgren. With a characteristic, bumper-shaped front opening for the quick storage of smaller essentials, every bag also comes with a protective RFID pocket, a safety back pocket, an integrated phone pocket, and a refined, detachable key hanger to keep you secure and organised. Selected styles offer a removable inside pouch, an A4 volume document holder and a padded laptop & tablet organisation.

INNER CITY

The Seasonals

EMBRACE THE CITY

Our Inner City Collection has always been a firm favourite. Once more, we've given our iconic bags a seasonal twist with new fabrics, colours and print options!

If you prefer softness and coziness, you will for sure fall for our new Corduroy range. Its unique, ridged fabric pattern gives the colour palette a warm and subtle 3-dimensional twist.

The Quilt additions are perfect for those who want to make more of a defined statement with their everyday look.

The Print special blends Hedgren's AW colour palette into one elegant design. For the ultimate coordinated match, our travel series Comby offers the same print on both cabin size cases.

Both Corduroy and Print come with moulded zipper tape details. Quilt has a metal zipper to add a chic, finishing touch.

BE DISTINCTIVE AND SECURE

Comby hardside comes in all key travel sizes. This remarkable range has a distinctive handle concept with two extra grip handles, smartly integrated in the front shell. The choice of four handles in total makes it child's play to pick up the cases and quickly place them on a conveyor belt or in the boot of your car.

To put your mind fully at ease during travelling, all Comby hardside models come with a double coil zipper closure. This smart safety feature ensures firm fastening and prevents unauthorised opening.
